

# LAWNWOOD REGIONAL MEDICAL CENTER

Lawnwood Regional Medical Center's Treasure Coast Trauma Center has treated more than 954 patients since opening. All patients have been treated within the "golden hour" and 89 percent of the trauma patients are local Treasure Coast residents!

This very needed service is the only trauma program in Service Area 14 where patients used to be transferred an hour away via trauma helicopter. The Lawnwood trauma program is not only saving lives, but improving access to high level medical specialists and surgeons who provide around the clock coverage for trauma care, but also provide specialized surgeries that residents used to have to leave the region to receive. The benefits extend hospital-wide as the training and expertise required for a trauma program, increases the level of care for every patient.

The program received state certification on July 1, 2010 as a Level II Trauma Center, the culmination of a 3-year effort and extensive financial investment to recruit and train staff and physicians.

<b># of Licensed Beds</b>	<b>341</b>
<b>Total Annual Admissions</b>	<b>17,025</b>
<b>Total Annual Emergency Visits</b>	<b>49,985</b>
<b>Total Patients Treated*</b>	<b>80,633</b>
